

Operational Meteorologist Vacancy

Fixed Term: early 2026 until April 2027

About Us

At WeatherQuest, we are passionate about the shared success of our clients and our team. We pride ourselves in being proactive and an 'umbrella for your business'. We are a close-knit team, encourage ideas from everyone and offer flexible and hybrid working, promoting a healthy work-life balance to all team members.

WeatherQuest is based in the multi-award-winning Enterprise Centre, one of Europe's greenest buildings. We are situated on the beautiful campus of the University of East Anglia, a leading Higher Education Institution renowned for its pioneering work on climate change. The university is a vibrant place with beautiful grounds and many amenities for its staff and students. In addition, we have the ancient cathedral city of Norwich, the Norfolk Broads and a spectacular coastline right on our doorstep.

Collaborating with companies that share our commitment to achieving net-zero targets, we proudly offer services that support the clean energy transition and help our clients be safe, productive and sustainable in their operations. We maintain stringent quality control measures across our supply chain to ensure data and services align with our sustainability objectives.

What will you do?

- Ensure our clients work safely, while helping to optimise their productivity.
- Pro-actively support our clients across all channels of communication.
- Contribute to innovation across our business

What do we need?

The successful applicant will:

- have a degree-level qualification in a related subject
- have experience as an operational forecaster
- demonstrate excellent verbal and written communication skills
- evidence a can-do approach and a commitment to continuous improvement

Desirable attributes:

- experience in marine forecasting
- complementary administrative or IT skills
- available to join us early in 2026

Salary will be determined by the experience and qualifications of the successful applicant.

Currently there are no overnight shift commitments, however weekend and bank holiday shifts will be required.

We are looking to make an offer to a strong candidate at the earliest opportunity – this position will remain open until then.

To apply, please send a CV and cover letter explaining your interest in working for Weatherquest to our Chief Communications Officer, Chris Bell, at chris.bell@weatherquest.co.uk – informal initial enquiries are also welcome.

Only those with the current freedom to work within the United Kingdom can be considered.
